DUNCAN AVENUE TO BE RESURFACED WITH ASPHALT

For several days employees of the public works department of Paris have been busy in plowing up Duncan avenue, preparatory to beginning the work of reconstruction and resurfacing. A big iron toothed harrow or drag drawn by the city's steam traction engine, is being used in the work of plowing up the street.

The old street will be reconstructed and resurfaced, Kentucky asphalt, the same as that used around the State Capitol building, in Frankfort, being used. This will be rolled into the new surface of the street, and will make an excellent, durable and wear-resisting top surface. The expense of the work will be borne jointly by the city and the Duncan avenue property-owners.

TO ADDRESS FARMERS' ON AGRICULTURAL WORK.

Mr. Otto Kircher, of Lexington, head of the Boys' Agricultural Club work in this state, will deliver an address to the farmers of Bourbon county, at the court house to-morrow afternoon at 1:30 o'clock, in the interest of the wheat campaign. Mr. P. N. Barrett, also connected with the College of Agriculture staff of the University of Kentucky, may also be present.

The purpose of the present wheat campaign is to induce the farmers of Kentucky to plant a larger acreage in wheat the coming season than ever before. The increased acreage desired is 100,000 acres. By means of these meetings and the spreading of greater production propaganda, Mr. Kircher estimates the production in the Bluegrass region this year is 50 per cent. more than last season. This represents an increase of about 2,000,000 bushels, or a total production of almost 15,000,000 bushels.

YARN WANTED.

Miss Ranah Owens requests that ladies who have more yarn in their possession than they can use before September 1, will kindly return same to her in order that it may be distributed among those who have not sufficient yarn to complete their knitting.

It is impossible to get any more yarn, as the military needs of the Government are such that no woolen or worsted hand-knitting yarns will be manufactured until further directed by the War Industries Board. This information has just been received by Miss Owens from the manufacturers at Bridgeport, Pa., complying with instructions sent out by Herbert E. Peabody, Chief of the Woolen Section of the War Industries Board.

WINCHESTER EMPLOYS OUR CONSULTING ENGINEER WEISS

Mr. W. H. Weiss, who is in the employ of the city of Paris, as Consulting Engineer, is to perform a like service for the city of Winchester.

Mr. Weiss has been engaged to cope with the present ice situation and to assure Winchester of an efficient and reasonable lighting service.

Mr. Weiss will, according to the contract entered in between him and the city of Winchester, make a thorough investigation as to the present lighting service and the charges for same and in the same manner investigate the ice situation. He will act in all negotiations between the city and the company.

The contract made with Mr. Weiss calls for the payment to him of fifty per cent. of the amount the city may save during a year's service by the means of his recommendations. He is to report direct to the City Council the result of his investigations and to make recommendations for improvement in the service given the city by the utilities.

Mr. Weiss is now employed as Consulting Engineer by the city governments of Georgetown, Paris, Winchester, Somerset and Glasgow, along similar lines of investigation.

LET'S HAVE A MEMORIAL TO BOURBON COUNTY BOYS.

It has been suggested that since the big billboard in the court house yard has seemingly served its purpose in advertising the War Savings Stamps Campaign and the Honor Roll, it now be converted into a memorial in honor of the boys from Paris and Bourbon county who are in the army and navy service.

The suggestion is one worthy of serious consideration. The billboard has fulfilled the purpose for which it was originally erected. It is not an ornament by any means. Now let's have the names of all the Bourbon county boys placed on another "Honor Roll," where it can be seen every day. In other places all over the country this is being done. Why not in Paris?
